

# Notice of Privacy Practices

DEVELOPMENTAL BEHAVIORAL PEDIATRICS OF ARIZONA (DBPAZ)

THIS NOTICE DESCRIBES HOW HEALTH INFORMATION MAY BE USED AND DISCLOSED AND HOW YOU CAN GET ACCESS TO THIS INFORMATION. PLEASE REVIEW IT CAREFULLY.

## **I. DBPAZ's PLEDGE REGARDING HEALTH INFORMATION:**

We understand that health information about your child's health care is personal. We are committed to protecting health information about your child. We create a record of the care and services you receive from us. We need this record to provide you with quality care and to comply with certain legal requirements. This notice applies to all of the records of your child's care generated by this health care practice. This notice will tell you about the ways in which we may use and disclose health information about our patients. We also describe your rights to the health information we keep about you, and describe certain obligations we have regarding the use and disclosure of your child's health information. We are required by law to:

- Make sure that protected health information ("PHI") that identifies the patient is kept private.
- Give you this notice of our legal duties and privacy practices with respect to health information.
- Follow the terms of the notice that is currently in effect.
- We can change the terms of this Notice, and such changes will apply to all information we have about you. The new Notice will be available upon request, in our office, and on our website.

## **II. HOW DBPAZ MAY USE AND DISCLOSE HEALTH INFORMATION ABOUT YOUR CHILD:**

The following categories describe different ways that we use and disclose health information. For each category of uses or disclosures we will explain what we mean and try to give some examples. Not every use or disclosure in a category will be listed. However, all of the ways we are permitted to use and disclose information will fall within one of the categories.

For Treatment Payment, or Health Care Operations: Federal privacy rules (regulations) allow health care providers who have direct treatment relationship with the patient/client to use or disclose the patient/client's personal health information without the patient's written authorization, to carry out the health care provider's own treatment, payment or health care operations. However, since we are a private/cash pay practice we will not be disclosing any of

your child's information to your health insurance carrier unless you tell us to, especially if you are wanting to be reimbursed by your health insurance company.

We may also disclose your child's protected health information for the treatment activities of any health care provider. This too can be done without your written authorization. For example, if a clinician were to consult with another licensed health care provider about the patient's condition, we would be permitted to use and disclose your personal health information, which is otherwise confidential, in order to assist the clinician in diagnosis and treatment of your child's mental health condition.

Disclosures for treatment purposes are not limited to the minimum necessary standard. Because therapists and other health care providers need access to the full record and/or full and complete information in order to provide quality care. The word "treatment" includes, among other things, the coordination and management of health care providers with a third party, consultations between health care providers and referrals of a patient for health care from one health care provider to another.

Lawsuits and Disputes: If you are involved in a lawsuit, we may disclose health information in response to a court or administrative order. We may also disclose health information about your child in response to a subpoena, discovery request, or other lawful process by someone else involved in the dispute, but only if efforts have been made to tell you about the request or to obtain an order protecting the information requested.
